Econon	nics		
Course	name	Class name	Description
COEC	475	The Economics and Policy of the Environment, Energy, and Natural Resources	Economic analysis of environmental problems, energy systems, and natural resources. Policy options to help resolve these issues. Credit will be granted for only one of COEC 475, COMM 487, or ECON 371.
COMM	306	Urban Land Economics	Examines economic factors affecting the urban land market, with an emphasis on determinants of urban land values, the housing market, urban transportation, and land use policies.
ECON	101	Principles of Microeconomics	Elements of theory and of Canadian policy and institutions concerning the economics of markets and market behaviour, prices and costs, exchange and trade, competition and monopoly, distribution of income.
ECON	102	Principles of Macroeconomics	Elements of theory and of Canadian policy and institutions concerning the economics growth and business cycles, national income accounting, interest and exchange rates, money and banking, the balance of trade.
ECON	221	Introduction to Strategic Thinking	An introduction to how people interact in strategic situations drawn from political science, history, psychology, law, biology, military history, economics, business, and anthropology. The focus will be on developing intuition. May not be taken for credit by students with fourth-year standing. Credit will be granted for only one of ECON 221 or ISCI 344.
ECON	226	Making Sense of Economic Data	Formulation of a testable hypothesis, identification of relevant data, use of appropriate statistical tools. May not be taken for credit by students with fourth-year standing in ECON or COMM. Not available for credit to students already having credit for either of ECON 325 or ECON 326 (or equivalent).
ECON	234	Wealth and Poverty of Nations	Historical approaches to long-run economic growth; international comparisons of income growth and inequality; colonialism; evolution of world capital markets; human migrations; rise of world trading empires; instability in the international economy. Credit will be granted for only one of ECON 234 and former ECON 334 (6). May not be taken for credit by students with fourth-year standing.
ECON	255	Understanding Globalization	Social and economic implications for both rich and poor countries of lowered barriers to the international flows of information, capital, labour and goods. May not be taken for credit by students with fourth-year standing.
ECON		Intermediate Microeconomic Analysis I	Consumer behaviour, producer theory, exchange, monopoly, oligopoly, externalities, public goods, general equilibrium and welfare economics. Credit will be granted for only one of ECON 201, ECON 301, or ECON 304.
ECON		Intermediate Macroeconomic Analysis I	Income and employment theory, monetary theory, the open economy, economic fluctuations and growth. Credit may be obtained for only one of ECON 302, ECON 305.
ECON	303	Intermediate Microeconomics II	Risk and uncertainty, some concepts in game theory, adverse selection, moral hazard, bargaining, auctions. Credit will be granted for only one of ECON 303 or ECON 306.
ECON		Honours Intermediate Microeconomic Analysis I	Consumer behaviour, producer theory, exchange, monopoly, oligopoly, externalities, public goods, general equilibrium and welfare economics. Credit will be granted for only one of ECON 204, ECON 301, ECON 304, ECON 315, COMM 295 or FRE 295.
ECON	305	Honours Intermediate Macroeconomic Analysis I	Income and employment theory, monetary theory, the open economy, economic fluctuations and growth. Credit will be granted for only one of ECON 302, ECON 305, or ECON 309.
ECON		Honours Intermediate Microeconomics II	Risk and uncertainty, some concepts in game theory, adverse selection, moral hazard, bargaining, auctions. Credit will be granted for only one of ECON 303 or ECON 306.
ECON	307	Honours Intermediate Macroeconomics II	Theories of economic growth and the business cycle. Intended primarily for prospective honours and other qualified students.
ECON	309	ntermediate Open Economy Macroeconomics	The aggregate economy with emphasis on macroeconomic policy and international economic growth, money and inflation, unemployment, business cycles, and macroeconomic stabilization policy under fixed and flexible exchange rates. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 302, ECON 305 or ECON 309.
ECON	310	Principles of Microeconomics	The scope of this course is approximately the same as that of ECON101. The course is intended for upper-level students only. Credit will be granted for only one of ECON 310 or ECON 101.
ECON	311	Principles of Macroeconomics	The scope of this course is approximately the same as that of ECON 102. The course is intended for upper-level students only. Credit will be granted for only one of ECON 311 or ECON 102.
ECON	315	Intermediate Microeconomics I	Consumer behaviour, producer theory, exchange, monopoly, oligopoly, externalities, public goods, general equilibrium and welfare economics. Registration restricted to students in the Bachelor of International Economics Program. Credit will be granted for only one of ECON 315 and ECON 204, ECON 301, ECON 304, ECON 308, COMM 295, FRE 295.

FCON	246	Latarra diata Baiarra anno antico II	
ECON	316	Intermediate Microeconomics II	Advanced topics in intermediate microeconomics: risk and uncertainty, some concepts in game theory, adverse selection, moral hazard, bargaining, auctions. Registration restricted to students in
			the Bachelor of International Economics Program. Credit will be granted for only one of ECON 316,
			ECON 303, or ECON 308.
ECON	317	Poverty and Inequality	Economic inequality in Canada and other countries; measurement and causes. Inequality in the
			distribution of wealth; redistribution of income and wealth; notions of distributive justice.
ECON	318	History and Philosophy of Economics	The development of economic thought from Aristotle to Adam Smith, focusing on the conceptual
		from Aristotle to Adam Smith	foundations of economics, particularly the problems of value, distribution, and economic growth.
ECON	323	Quantitative Economic Modelling	Computational tools used in modern economics. Including application of data science in economics;
		with Data Science Applications	visualization and manipulation of economic data; solving and simulating dynamic economic models.
ECON	325	Introduction to Empirical Economics	Essentials of probability and statistics for applied work in economics. Topics include descriptive
LCON	323	introduction to Empirical Economics	statistics, probability, estimation, hypothesis testing, and analysis of variance. Please consult the
			Faculty of Science Credit Exclusion List:
			http://www.calendar.ubc.ca/vancouver/index.cfm?tree=12,215,410,414
ECON	326	Methods of Empirical Research in	Techniques of empirical economic research. Topics include simple and multiple regression, time
		Economics	series analysis, and simultaneous equation estimation. Students will be required to undertake
			applied work. Please consult the Faculty of Science Credit Exclusion List:
			http://www.calendar.ubc.ca/vancouver/index.cfm?tree=12,215,410,414.
ECON	327	Introduction to Empirical Methods	Basic tools for the statistical analysis of economic data. Registration restricted to students in the
			Bachelor of International Economics Program. Credit will be granted for only one of ECON 325,
			ECON 327, or STAT 200; please consult the Faculty of Science Credit Exclusion List:
ECON	328	Methods of Empirical Research	http://www.calendar.ubc.ca/vancouver/index.cfm?tree=12,215,410,414. Empirical tools used in applied research, with emphasis on the linear regression model. Registration
LCOIN	320	iviethous of Emphrical Research	restricted to students in the Bachelor of International Economics program. Credit will be granted for
			only one of ECON 326, ECON 328, or STAT 306; please consult the Faculty of Science Credit Exclusion
			List: http://www.calendar.ubc.ca/vancouver/index.cfm?tree=12,215,410,414.
ECON	334	Economic History of Modern Europe	Background, causes and effects of economic change in Europe from the 18th century to recent
			times. Evolution of social and economic institutions; analysis of growth, structural change, the
			distribution of income, and the spread of industrialization
ECON	335	Fertility, Families and Human	Traditional fertility and mortality patterns, demographic transition, catastrophes, well-being and
FCON	226	Migration	nutrition, international and internal migration, epidemics and growth spurts.
ECON	336	Economic History of Canada	The growth of the Canadian economy in relation to development of natural resources, changing markets, industrialism, communications, and technology.
ECON	339	Economics of Technological Change	Application of economic analysis to technological change; the impact of technological change on the
20011		Leonomies of resimological ename	growth and distribution of income; economic influences on the invention and diffusion of
			technology; the interaction between technology, work, skills, and education; public policy toward
			technological change.
ECON	345	Money and Banking	Financial markets and financial institutions in theory and practice; structure and development of the
			Canadian financial system; development and theory of the regulation of the financial system;
			process of monetary control; theory and history of central banking and monetary policy.
FCON:	252	Dublic Finance Delin Tool	Experiencial and the control of the
ECON	350	Public Finance Policy Topics	Examination of two or three selected policy problems from areas of taxation, income security, and public expenditures. Topics to be selected each year from areas of current or recent policy debate.
			Examples include public pension policy, privatization and public services, income tax or sales tax
			reform, federal-provincial cost sharing programs, tax incentives versus direct expenditures, welfare
			reform
ECON	351	Women in the Economy	Economic analysis of markets and policies particularly affecting women. Selected topics drawn from
			economic discrimination; educational, occupational, and work choices; pay and employment equity;
			allocation of work time and consumption within the household and in the market; economics of
			marriage and fertility; poverty; taxation; income security and pension policies; and historical
			perspectives.
ECON	355	Introduction to International Trade	The determinants of trade patterns, trade policy, tariff and non-tariff barriers to trade, political
			economy of protectionism, bilateral and multilateral trade disputes, trade liberalization, trade and
			development. Credit may be obtained for only one of ECON 355 and 455.
ECON	356	Introduction to International Finance	Exchange rate policy regimes; international financial organizations; the interaction between
	1		
LCON			Imonetary policy and exchange rate regimes; financial crises.
	367	Economic Analysis of Law	monetary policy and exchange rate regimes; financial crises. The economics of market failure, equity and efficiency. Property rights, the economics of accident

Economics of Project Evaluation approaches to public decision-making such as costs effectiveness analysis and multiple-object				
Frameworks. Case studies of projects in the areas of natural resources, the environment, but resources, public services, and transportation. ECON 374 Invitronmental Economics	CON 3	370	Benefit-Cost Analysis and the	Techniques and problems in benefit-cost analysis of public projects. Examination of alternative
resources, public services, and transportation. Econ 371 Environmental Economics Economic analysis applied to various warronmental issues, including sustainable development quality of III fe, and environmental issues, including sustainable development quality of III fe, and environmental issues, including sustainable development quality of III fe, and environmental issues, including sustainable development analysis and implementation of government policies. Global environmental effects of human economic activity. Econ 374 Land Economics Economics analysis applied to problems of Iard use. Effects of institutions and public portion and problems of the problems of Iard use. Effects of institutions and public portion and problems in health services in the problems of the problems of Iard use. Effects of institutions and public portion and problems in health services and the problems of Iard use.
